Re: In the Matter of Florida Power &
Light Company (St. Lucie Nuclear Power
Plant, Unit No. 2) Docket No. 50-389

Dear Members of the Board:

In its Order of April 16, 1980, the Board requested information concerning certain unsuccessful start attempts which were not specifically enumerated by Florida Power & Light Company (FPL) in its March 14, 1980 submittal since they were not deemed to relate to anticipated diesel generator performance under emergency conditions. This is to inform the Board and the parties--in response to directions also contained in the Board's Order--that the requested information will be provided not later than Friday, May 2, 1980.

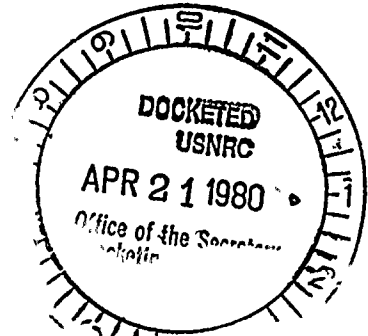

Respectfully submitted,

Michael A. Bauser
