Gentlemen:

SUBJECT: RECEIPT OF ADDITIONAL ANTITRUST INFORMATION
ST. LUCIE PLANT, UNIT 2

By letter, dated June 13, 1980, Florida Power and Light Company filed information requested by the Attorney General for Antitrust Review as required by our regulation 10 CFR Part 50, Appendix L. The information was submitted on the City of Orlando, Florida and the Orlando Utilities Commission as an additional owner of the St. Lucie Plant, Unit 2. The Orlando Utilities Commission was organized as a Special District under the laws of Florida with the principal location for business in Orlando, Florida.

Construction of the St. Lucie Plant, Unit 2 is underway on a site located on the Hutchinson Island in St. Lucie, County, Florida.

For your information and use, I have enclosed a related notice which has been forwarded to the Office of the Federal Register for publication.

Sincerely,

ORIGINAL SIGNED BY
B. J. Youngblood, Chief
Licensing Branch No. 1
Division of Licensing

Enclosure:
Federal Register Notice

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-389-AFLORIDA POWER AND LIGHT COMPANYCITY OF ORLANDO, FLORIDA AND THE ORLANDO UTILITIES COMMISSIONNOTICE OF RECEIPT OF ADDITIONAL ANTITRUST INFORMATIONTIME FOR SUBMISSION OF VIEWS ON ANTITRUST MATTERS

Florida Power and Light Company, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, (the Act), filed on June 13, 1980, information requested by the Attorney General for Antitrust Review as required by 10 CFR Part 50, Appendix L. The information concerns the addition of the City of Orlando, Florida and the Orlando Utilities Commission, as an owner of the St. Lucie Plant, Unit 2, located on Hutchinson Island in St. Lucie County, Florida. The Orlando Utilities Commission was created by the Florida State Legislature and is a part of the City of Orlando, Florida.

The information was filed in connection with Florida Power and Light Company's application for an amendment to Construction Permit No. CPPR-144 to the St. Lucie Plant, Unit 2. Construction Permit No. CPPR-144 was issued on May 2, 1977 and construction of the plant is underway.

The original Notice of Receipt of application for construction permit and operating license included the antitrust aspects of the application and was published in the Federal Register on June 16, 1971, (36 F.R. 11473).

10

The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in all dealings. The second part outlines the specific procedures and protocols that must be followed to ensure compliance with all relevant laws and regulations. This includes detailed instructions on how to handle sensitive information, manage financial resources, and conduct regular audits. The final section provides a summary of the key points and offers recommendations for ongoing improvement and monitoring. It stresses the importance of staying up-to-date with changes in the regulatory environment and fostering a culture of integrity and ethical behavior throughout the organization.

- 2 -

A copy of the Florida Power and Light Company letter, dated June 13, 1980 and above stated documents are available for public examination and copying for a fee at the Commission's Public Document Room located at 1717 H Street, N.W., Washington, D.C. and at the Indian River Community College Library, 3209 Virginia Avenue, Ft. Pierce, Florida 33450

Any person who wishes to have his views on the antitrust matters with respect to the City of Orlando, Florida and Orlando Utilities Commission presented to the Attorney General for consideration should submit such views to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Chief, Utility Finance Branch, Division of Engineering, Office of Nuclear Reactor Regulation on or before September 29, 1980.

Dated at Bethesda, Maryland this *18<sup>th</sup>* day of July 1980.

FOR THE NUCLEAR REGULATORY COMMISSION

*B. J. Youngblood*

B. J. Youngblood, Chief  
Licensing Branch #1  
Division of Licensing,  
Office of Nuclear Reactor Regulation

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures that the financial statements are reliable and can be audited without any discrepancies.

In the second section, the author outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software. Each method has its own strengths and weaknesses, and the choice of which to use depends on the specific requirements of the study.

The third part of the document focuses on the results of the research. It presents a series of tables and graphs that illustrate the trends and patterns observed in the data. The findings suggest that there is a significant correlation between the variables being studied, and this relationship can be used to make informed decisions in the future.

Finally, the document concludes with a series of recommendations based on the research findings. These recommendations are designed to help organizations improve their internal controls and reduce the risk of financial loss. It is hoped that these suggestions will be helpful and lead to a more efficient and effective financial management system.
