Dear Mr. O'Reilly:

Re: RII:JPO  
50-335  
IE-Bulletin 80-11

The Florida Power & Light Company response to Bulletin 80-11 (L-80-233) dated July 24, 1980 indicated that a detailed list of systems requested in paragraph 1 of that Bulletin would be provided by October 1, 1980.

As discussed with Resident NRC Inspector Mr. Steve Elrod on September 29, 1980, the collection of the requested information for St. Lucie Unit 1 is awaiting the completion of system walkdowns by the Architect Engineer. The required information will subsequently be available on site for review by October 20, 1980, and will also be included in the report containing the results of the wall re-evaluation program.

Very truly yours,

*J. A. De Massey*
