Dear Mr. Eisenhut:

Re: St. Lucie Unit 1
Docket No. 50-335
Technical Support Center

The FPL response (L-80-113), dated April 3, 1980 to your letter of March 27, 1980 indicated that the work on the data display computer and its associated equipment for the Technical Support Center was scheduled for completion by October 31, 1980.

Presently all of the required equipment for the system has been ordered and a significant portion of it is on site.

However, due to the delays of procurement associated with the remaining components and the subsequent installation time, this system is currently scheduled to be complete and operational by April 1, 1981.

Very truly yours,
