Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 1
Docket No. 50-335
AC Power

We have received your letter of October 10, 1980 regarding the potential for a transient total loss of AC power at operating reactors such as St. Lucie Unit 1. In response to this issue, we plan to meet with our vendors to develop a plan and schedule for responding to your concerns.

The logistics of scheduling the meeting, properly addressing the concerns, and then submitting a formal implementation schedule will carry us beyond the October 30, 1980 response date requested in your letter. Therefore, we have scheduled November 14, 1980 as the revised due date for responding more fully to your October 10, 1980 letter.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
