1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial system and for providing a clear audit trail.

2. The second part of the document outlines the specific procedures that must be followed when recording transactions. It details the steps from the initial entry to the final review and approval process.

3. The third part of the document addresses the role of the accounting department in this process. It highlights the need for close collaboration between the accounting team and other departments to ensure that all transactions are properly recorded and categorized.

4. The fourth part of the document discusses the importance of regular audits and reviews. It explains how these activities help to identify any discrepancies or errors in the records and to take corrective action as needed.

5. The fifth part of the document provides a summary of the key points discussed in the previous sections. It reiterates the importance of accuracy, proper procedures, and regular audits in maintaining the financial system.

6. The final part of the document concludes with a statement of the author's hope that the information provided will be helpful to all those involved in the financial process.

Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 1
Docket No. 50-335
Proposed Amendment to
Operating License DPR-67

On October 30, 1980 (L-80-358), Florida Power & Light Company submitted a request to amend Appendix A of Facility Operating License DPR-67 to provide for redundancy in decay heat removal systems as requested by a NRC letter dated June 11, 1980.

Page B 3/4 9-2, Section 3/4 9.8 "Coolant Circulation", as submitted by FPL inadvertently contained a paragraph which should be deleted. The enclosed page should be substituted for that page.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
