Dear Mr. O'Reilly:

Re: RII-JPO
50-335
IE Bulletin 80-11

Florida Power & Light has completed the field inspections of masonry walls at St. Lucie Unit 1 in order to answer the subject Bulletin. We are presently performing the required re-evaluations of 95 safety related walls in accordance with the re-evaluation criteria which we have recently completed. The development of these criteria has been a major effort and the wall re-evaluations were delayed until this development was completed. Because of this criteria effort, our final report submittal will be delayed until after the wall re-evaluations are complete. As this work has just recently started, we have scheduled February 9, 1981 as a realistic date for our final report on the Bulletin.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
