Mr. James P. O'Reilly, Director, Region II  
Office of Inspection and Enforcement  
U. S. Nuclear Regulatory Commission  
101 Marietta Street, Suite 3100  
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

Re: St. Lucie Unit 2  
Docket No. 50-389  
CEDM Motor Housing NDE

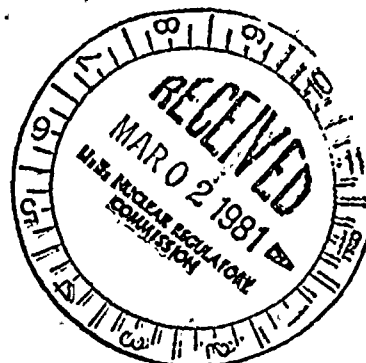

On November 24, 1980, Florida Power & Light Company (FPL) notified the Region II Office of Inspection and Enforcement of a potential 10 CFR 50.55 (e) item regarding a missed ASME Section III final non-destructive examination (NDE) step in the manufacture of the control element drive mechanism (CEDM) motor housings used at St. Lucie Unit 2. On December 23, 1980 (L-80-416), FPL informed you that the incident was considered to be not reportable with justification for that decision provided in the response. That response was a final response, and the word "draft" should not have been included in the text of the letter.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology

REU/TCG/ah
