Mr. John Ahearne, Chairman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Ahearne:

You have received a letter from Florida Power and Light requesting a revision of the NRC licensing schedule for St. Lucie #2 based on an October, 1982, completion date. A copy of that letter is enclosed.

Based on the facts presented, I would hope you and your staff will make the necessary adjustments to the schedule to avoid delay and unnecessary costs which would be passed on to Florida Power customers.

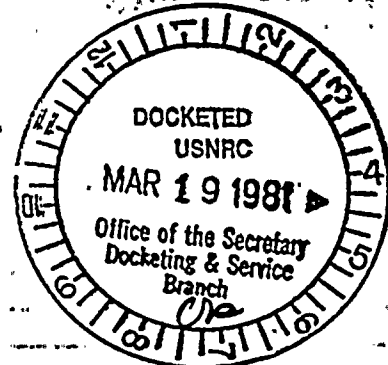

I wish to be informed.

Sincerely,

BILL MCCOLLUM
Member of Congress
