1942

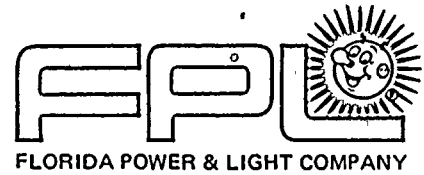

1. The first part of the document discusses the general situation of the country and the progress of the war. It mentions the importance of maintaining a high level of morale and the need for continued effort on the part of the population.

2. The second part of the document deals with the economic situation and the measures being taken to improve it. It highlights the need for increased production and the importance of conserving resources.

3. The third part of the document focuses on the social and cultural aspects of the war effort. It emphasizes the role of the press and the arts in inspiring the population and promoting a sense of unity.

4. The fourth part of the document discusses the military situation and the progress of the front. It mentions the successes of the armed forces and the determination to achieve a decisive victory.

5. The fifth part of the document concludes with a call to action, urging the population to continue to support the war effort with courage and determination.

Office of Nuclear Reactor Regulation  
Attention: Mr. Robert A. Clark, Chief  
Operating Reactors Branch #3  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Clark:

Re: St. Lucie Unit 1  
Docket No. 50-335  
Request for Exemption from Certain  
Requirements of 10 CFR 50.48 and  
Appendix R to 10 CFR Part 50

On March 19, 1981 (L-81-122), FP&L submitted a request for exemptions from certain requirements set forth in 10 CFR 50.48 and Appendix R to 10 CFR Part 50.

The request for the exemption pursuant to 10 CFR 50.48(c)(6) on page 17 from the requirements of 10 CFR 50.48(c)(2) requested that FP&L have until September 1, 1982 to complete modifications required on the Fire-Rated dampers in the duct penetrations for the auxiliary building.

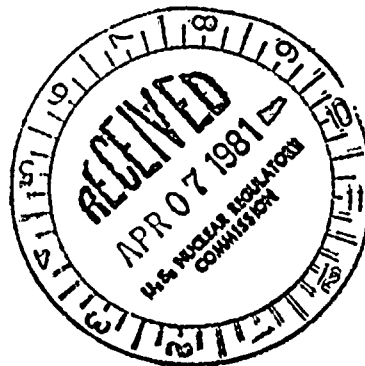

The date requested was inadvertently incorrect and should have been for October 1, 1982. The subject correction should be made to your copies of this submittal.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
