Mr. B. J. Youngblood, Chief  
Licensing Branch No.1  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Re: Your Letter of April 6, 1981  
Cultural Resource Assessment Request  
St. Lucie Power Plant Unit No. 2, St. Lucie County,  
Florida

Dear Mr. Youngblood:

In accordance with the procedures contained in 36 C.F.R., Part 800 ("Procedures for the Protection of Historic and Cultural Properties"), we have reviewed the above referenced project for possible impact to archaeological and historical sites or properties listed, or eligible for listing, in the National Register of Historic Places. The authorities for these procedures are the National Historic Preservation Act of 1966 (Public Law 89-665) as amended by P.L. 91-243, P.L. 93-54, P.L. 94-422, P.L. 94-458, and P.L. 96-515 and Presidential Executive Order 11593 ("Protection and Enhancement of the Cultural Environment").

A review of the Florida Master Site File indicates that no archaeological or historical sites are listed for the project area. Furthermore, because of the location of the project, it is considered highly unlikely that any significant, unrecorded sites exist in the vicinity. Therefore, it is the opinion of this office that the proposed project will have no effect on any sites listed, or eligible for listing, in the National Register of Historic Places, or otherwise of national, state, or local significance.

On behalf of the Secretary of State, George Firestone, and the staff of the Bureau of Historic Sites and Properties, I would like to thank you for your interest and cooperation in the protection of Florida's irreplaceable historic resources.

Sincerely,

George W. Percy  
Deputy State Historic  
Preservation Officer
