Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 1
Docket No. 50-335
Post TMI Requirements

Our letter L-80-418, dated December 23, 1980 stated that we were pursuing Item II.B.4, Training for Mitigating Core Damage, through the CE Owners Group. The subject materials have been received and reviewed by the PSL Training Staff. Presentations of this material to the appropriate personnel is expected to commence by June 30, 1981 and be completed by October 1, 1981. Because the subject materials are copywrited by Combustion Engineering Inc., the course description is not included in this letter. The course materials are available for review at the Plant Site.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
