STATEMENT OF INTENT

As Deputy Commissioner for Operations/COO of the U.S. Food and Drug Administration, I exercise express authority and responsibility to request from FDA funds for decommissioning activities associated with operations authorized by U.S. Nuclear Regulatory Commission Material License No. 20-08361-01. This authority is established by FDA Staff Manual Guide 1410.21 (enclosure 1). Within this authority, I intend to request that funds be made available when necessary to decommission for the purposes of partial site release the Winchester Engineering & Analytical Center, 109 Holton Street, Winchester, MA 01890. The FDA estimated the cost of this decommissioning for the partial site release to be \$458,000 and subsequently awarded a contract for same (enclosure 2). I intend to request and obtain the additional requisite 25% contingency funds (\$114,500) sufficiently in advance of decommissioning to prevent delay of required activities.
