

JUL 14 1981

Dr. Robert E. Uhrig, Vice President
Advanced Systems & Technology
Florida Power & Light Company
P. O. Box 529100
Miami, Florida 33152

Dear Dr. Uhrig:

SUBJECT: ST. LUCIE PLANT, UNIT 2 FSAR - REQUEST FOR MANAGEMENT ACTION TO
FURNISH REQUIRED INFORMATION

At a June 19, 1981 meeting with your staff in Bethesda, we again emphasized the need to furnish us your analyses of asymmetric LOCA blowdown loads, which was initially requested earlier this year. The Containment Systems Branch reviewers require this information in order to complete the FSAR review in their area of responsibility to meet the review schedule for issuance of their SER input by September 12, 1981.

Your staff informed us at the meeting that the magnitude of the effort is such that based on your current schedule, the needed information would not be provided until the end of 1981. Your staff also indicated that you were examining methods to improve upon your current schedule. Your attention is needed to assure that the necessary action is taken to furnish us the required information in a timely manner. Please inform me of the course of action you are taking.

Sincerely,

Original signed by
Darrell G. Eisenhut

TO : SAC, NEW YORK
FROM : SAC, PHOENIX
SUBJECT: [Illegible]

Reference is made to your letter of 1/15/51 and the enclosed copy of the same. The enclosed copy of the letterhead memorandum of the Phoenix Office dated 1/15/51 is being furnished to you for your information.

The Phoenix Office is currently conducting an investigation of the activities of the [Illegible] in the Phoenix area. It is requested that you continue to keep the Phoenix Office advised of any developments in your office which may be of interest to the Phoenix Office.

Very truly yours,
[Illegible Signature]
Special Agent in Charge

SUBJECT: ST. LUCIE PLANT, UNIT 2 FSAR - REQUEST FOR MANAGEMENT ACTION TO
 FURNISH REQUIRED INFORMATION

In a June 19, 1981 meeting with your staff in Bethesda, we again emphasized the need to furnish us your analyses of the asymmetric LOCA blowdown loads. Our Containment Systems Branch requires this information in order to complete the FSAR review in their area of responsibility to meet the review schedule for issuance of their SER input by September 12, 1981.

Your staff informed us on the June 19, 1981 date that the magnitude of the effort is such that they would not be able to furnish us the needed information until the end of 1981. This is unsatisfactory. We recognize that your staff is investigating ways to improve on the date for completion of the analyses and furnishing us the information. Your attention is needed in this matter to assure that the necessary action is taken to furnish us the required information in a timely manner. Please inform me of the course of action you are taking.

Sincerely,

Darrell G. Eisenhut, Director
