TOTAL NUMBER OF COPIES REQUIRED: LTR 56 ENCL  $\phi$

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting process, from the initial entry of data into the system to the final review and approval of the records.

3. The third part of the document addresses the issue of data security. It discusses the various risks associated with the loss or theft of financial data and provides recommendations for implementing effective security measures to protect the information.

4. The fourth part of the document discusses the importance of regular audits. It explains how audits can help to identify errors and discrepancies in the records and ensure that the system is operating in accordance with established standards and regulations.

5. The fifth part of the document discusses the importance of training and education for staff involved in the financial system. It emphasizes that ongoing training is necessary to ensure that staff are up-to-date on the latest developments in accounting and financial management.

6. The sixth part of the document discusses the importance of communication and collaboration between different departments and individuals involved in the financial system. It stresses that effective communication is essential for the successful implementation of any financial system.

7. The seventh part of the document discusses the importance of documentation. It explains that all transactions and decisions should be properly documented to provide a clear and concise record of the system's operation.

8. The eighth part of the document discusses the importance of monitoring and evaluation. It explains that regular monitoring and evaluation of the system's performance is necessary to identify areas for improvement and ensure that the system remains effective and efficient.

9. The ninth part of the document discusses the importance of transparency and accountability. It explains that all transactions and decisions should be transparent and subject to review and scrutiny to ensure that the system is operating in a fair and equitable manner.

10. The tenth part of the document discusses the importance of compliance with applicable laws and regulations. It explains that the financial system must be designed and operated in a way that ensures compliance with all relevant legal and regulatory requirements.

Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 1  
Docket No. 50-335  
Post-TMI Requirements

This letter is to inform you of our progress toward the implementation of NUREG-0737 item II.E.1.2. In our letter of January 2, 1981 (L-81-4) we described the Auxiliary Feedwater (AFW) System modifications which would be implemented by January 1, 1982. We intend to install the safety-grade equipment associated with the automatic initiation of AFW flow during the current refueling outage. Upon implementation, St. Lucie 1 will have addressed all the NUREG requirements regarding auto-initiation of AFW.

However, the Auxiliary Feedwater Logic Cabinet which incorporates additional AFW capabilities (automatic isolation of a faulted steam generator or high energy line break) not required by the NUREG cannot be installed and tested during this refueling outage due to the equipment delivery dates. We plan to implement this portion of the system during the next refueling outage.

We will inform you should we meet any unexpected delays that would affect this schedule.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology

REU/PKG/ras
