1-2

The first part of the document discusses the importance of maintaining accurate records and the role of the various departments involved in the process. It highlights the need for clear communication and coordination between all parties to ensure the smooth operation of the organization.

In the second section, the focus is on the implementation of new procedures and the training of staff members. This section emphasizes the importance of providing adequate resources and support to ensure that all employees are equipped with the necessary skills and knowledge to perform their duties effectively.

The third part of the document addresses the financial aspects of the organization, including budgeting and cost control. It discusses the various methods used to track expenses and the importance of staying within the allocated budget to maintain the financial health of the organization.

Finally, the document concludes with a summary of the key findings and recommendations. It reiterates the importance of continuous improvement and the need to regularly review and update policies and procedures to reflect changes in the organization's needs and the external environment.

Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 2
Docket No. 50-389
Final Safety Analysis Report
Requests For Additional Information

Attached are Florida Power & Light Company (FPL) responses to NRC staff requests for additional information which have not been formally submitted on the St. Lucie Unit 2 docket. These responses will be incorporated into the St. Lucie Unit 2 FSAR in a future amendment.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
