Docket No. 50-335

Dr. Robert E. Uhrig
 Vice President of Advanced
 Systems & Technology
 Florida Power & Light Company
 P. O. Box 529100
 Miami, Florida 33152

Dear Dr. Uhrig:

SUBJECT: REACTOR COOLANT SYSTEM VENTS, NUREG-0737 ITEM II.B.1, ST. LUCIE UNIT 1

The staff is reviewing your submittal concerning Reactor Coolant System Vents, NUREG-0737 Item II.B.1. Your submittal does not include specific operating procedures for the RCS vent system.

The intent of the NUREG-0737 requirement was to receive plant specific procedures by July 1, 1981. The assertion that detailed operating procedures cannot be developed until the RCS vent design is approved and/or the system is implemented is not acceptable.

Therefore you are requested to provide a schedule for submittal of the RCS vent operating procedures within thirty days of receipt of this letter. Our review will not be completed until these procedures are received. If you have any questions, please contact your assigned NRC project manager, Christian C. Nelson.

Sincerely,

Original signed by
