Dear Mr. Eisenhut:

Re: St. Lucie Unit 1  
Docket No. 50-335  
Installation of Fire Doors

Florida Power & Light is currently re-evaluating the heavily cabled fire areas to the new 10 CFR 50 Appendix R Section III.G.2 criteria. This item was previously closed in the Safety Evaluation Report. This exhaustive review and analysis is currently scheduled for completion and submittal to the NRC by May 31, 1982.

We intend to include, as part of that submittal, a re-review of fire boundaries and fire doors to the III.G.2 criteria and other guidance provided in Appendix R. We will defer action on our commitment to install twenty-six new fire doors by October 1, 1982 until the review and approval of our pending submittal is complete. The previous commitment was included in our letter (L-81-122) dated March 19, 1982.

Very truly yours,

Robert E. Uhrig
