Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 1  
Docket No. 50-335  
Secondary Water Chemistry

We transmitted a description of the secondary water chemistry and monitoring program in our letter L-82-120, dated March 29, 1982. You reviewed and approved that program as indicated in your letter dated April 16, 1982.

Therefore, we now withdraw the proposed Technical Specification amendment we transmitted in letter L-77-151 dated May 19, 1977, since appropriate secondary water limits are controlled by an NRC approved program.

Very truly yours,

A handwritten signature in cursive script that reads 'Robert E. Uhrig'.
