ATTACHMENT TO

L-82-309 dated August 9, 1982

The changes that are found in Amendment 12 resulted from Florida Power and Light Company's recent cover to cover Quality Assurance review of the St Lucie Unit 2 FSAR. The changes in the chapters and in the NRC questions are editorial in nature. They range from correcting references to figures, subsections and tables to correcting typographical errors. In this amendment, which was generated as a result of FPL Quality Assurance review, it is FPL's belief that there are no changes that would affect the safety analysis performed for St Lucie Unit 2 by the NRC.
