ENGINEERING VERIFICATION PROGRAM - SL2
EVP REVIEW COMMITTEE MEETING
DATE: September 16, 1982
LOCATION: St Lucie Unit No. 2 Site

ATTENDEES:

Florida Power & Light Company

D L Christian - EVP Review Committee Chairman/EVP
Task Force Manager

*E W Dotson - Engineering Project Manager

W F Brannen - Assistant to Task Force Manager

Ebasco Services Incorporated

T H Blodgett - EVP Task Force Manager

E Z Zuchman - Project Engineer

Combustion Engineering, Inc.

D D Miller - EVP Task Force Manager

*J C Moulton - Project Manager

* Part-time

A. Purpose of Meeting

1. Discuss completion of Ebasco and C-E independent designs and release of existing designs for comparison.
2. Review the first two independent design packages for completeness.
3. If review process completed at meeting, authorize the Project Teams to release the applicable existing designs.

B. Verification Item 4 (Ebasco)

1. Copies of the H₂ Recombiner independent design package were made and distributed by the Ebasco Task Force Manager.
2. Copies of ETF letter EVP-306/SL-2, dated September 15, 1982, and entitled, "Verification Item No. 4 - Hydrogen Recombiner - Request for Release of Existing Design Documents," were distributed to Review Committee members at the same time.

B. Verification Item 4 (Ebasco) (Cont'd)

3. Discussion of the package was started, but it was determined that review could not be completed at the meeting. It was decided that package review would have to continue on an individual member basis, with completion scheduled for September 21.
4. On September 21, all members were to be contacted by the Committee Chairman regarding completeness of the package and at that time it would be decided if approval could be granted for release of the existing design.

C. Verification Item (C-E)

1. Copies of the Safety Injection Tank Isolation Valve independent design package were made and distributed by the C-E Task Force Manager.
2. As with Item 4, it was determined that review would be carried out on an individual member basis and completed by September 22.

D. Subsequently Completed Independent Design Packages

1. It was agreed that it would be impractical for the Review Committee to convene every few days to review the remaining independent design packages as each is completed.
2. It was determined that each subsequent package would be submitted to the Review Committee via letter to the FPL EVP Task Force Manager/ Review Committee Chairman. Transmittals to individual members would be simultaneously made by the fastest possible means, such as Federal Express.

E. Miscellaneous

1. A synopsis of the EVP Task Force Managers/NRC September 14 meeting to discuss program independence was presented by Mr Christian, with additional comments by Messrs Miller and Blodgett.
2. The written meeting summary is forthcoming from Mr Nerses of the NRC.
