Office of Nuclear Reactor Regulations
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit No. 2
Docket No. 50-389
Diesel Generator Load
Sequencing Relays

As discussed in NUREG-0843 section 8.3.1.1, Florida Power and Light Company (FPL) has been evaluating new electronic diesel generator load sequencing relays. We have completed our evaluation and have determined that the new electronic relays will be more reliable than those presently installed. Therefore, FPL will replace the existing relays with the new electronic relays. Installation of the new relays is expected to be completed by the end of the first refueling.

If you have any questions regarding this matter, please contact us.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems and Technology

BOO!
