Gentlemen:

We have received a copy of your application dated March 9, 1983, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification changes relating to the chlorine detection system at St. Lucie Plant, Unit No. 1. Fees pursuant to 10 CFR 170.22 were not remitted with your application.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) is appropriate for it since the review will involve consideration of a single safety issue. Therefore, you are requested to remit the sum of \$4,000 to this office. If the ONRR staff's final review of your application reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
