The following information was obtained from the records of the
 Department of the Interior, Bureau of Land Management, on
 the subject of the above-captioned matter.

The records of the Bureau of Land Management show that the
 land described in the above-captioned matter was acquired by
 the United States Government in the year 1900.

The records of the Bureau of Land Management also show that the
 land described in the above-captioned matter was conveyed to
 the State of California in the year 1905.

Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: St. Lucie Unit 1
Docket No. 50-335
Reload Safety Analysis for Cycle 6

Reference: Letter, R. E. Uhrig to D. G. Eisenhut,
L-83-27, January 20, 1983

Dear Mr. Eisenhut:

Please be advised that the following changes should be made to the referenced submittal:

1. Reference 2 of XN-NF-82-81, "St. Lucie Unit 1, Cycle 6, Safety Analysis Report", should be deleted. The Reference 2 report provides detailed nuclear design information for use in Florida Power & Light Company's fuel management analyses of a type that is not normally reviewed by the staff during a reload review. The portions of the Reference 2 report which are normally pertinent to the reload review are duplicated in XN-NF-82-81.
2. Reference 11 of XN-NF-82-81 should be changed to XN-NF-75-32(P), Supplements 1 through 4. The originally reported document number was misquoted.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
