Dear Mr. Clark:

Re: St. Lucie Unit 1
Docket No. 50-335
Reactor Vessel Surveillance Specimen

Your letter dated May 4, 1983 expressed your approval of our plans to remove the first reactor vessel material irradiation surveillance specimen during the current outage. You also requested a date by which the information resulting from the examination and evaluation of the specimen will be provided.

We anticipate receiving the final report summarizing the test results from Combustion Engineering in early October 1983. We will forward it to you, following our review and concurrence, by November 1, 1983.

Very truly yours,
