|---|---|------------------------------------|----------------|------------------------------------|-----|
| 1. General Criteria   |   |                                    | Initials       |                                    |     |
|   |   |                                    | a              | b*                                 | c#  |
| a.  | The operating test conforms with the previously approved outline; changes are consistent with sampling requirements (e.g., 10 CFR 55.45, operational importance, safety function distribution).   | SEA<br>012                         | Qam            | MSB                                |     |
| b.  | There is no day-to-day repetition between this and other operating tests to be administered during this examination.  | SEA<br>012                         | Qam            | MSB                                |     |
| c.  | The operating test shall not duplicate items from the applicants' audit test(s). (see Section D.1.a.)   | SEA<br>012                         | Qam            |                                    |     |
| d.  | Overlap with the written examination and between different parts of the operating test is within acceptable limits.   | SEA<br>012                         | Qam            | MSB                                |     |
| e.  | It appears that the operating test will differentiate between competent and less-than-competent applicants at the designated license level.   | SEA<br>012                         | Qam            | MSB                                |     |
| 2. Walk-Through Criteria  |   |                                    |                |                                    |     |
| a.  | Each JPM includes the following, as applicable: <ul style="list-style-type: none"> <li>initial conditions</li> <li>initiating cues</li> <li>references and tools, including associated procedures</li> <li>reasonable and validated time limits (average time allowed for completion) and specific designation if deemed to be time-critical by the facility licensee</li> <li>operationally important specific performance criteria that include: <ul style="list-style-type: none"> <li>detailed expected actions with exact criteria and nomenclature</li> <li>system response and other examiner cues</li> <li>statements describing important observations to be made by the applicant</li> <li>criteria for successful completion of the task</li> <li>identification of critical steps and their associated performance standards</li> <li>restrictions on the sequence of steps, if applicable</li> </ul> </li> </ul> | SEA<br>012                         | Qam            | MSB                                |     |
| b.  | Ensure that any changes from the previously approved systems and administrative walk-through outlines (Forms ES-301-1 and 2) have not caused the test to deviate from any of the acceptance criteria (e.g., item distribution, bank use, repetition from the last 2 NRC examinations) specified on those forms and Form ES-201-2.   | SEA<br>012                         | Qam            | MSB                                |     |
| 3. Simulator Criteria   |   |                                    |                |                                    |     |
| The associated simulator operating tests (scenario sets) have been reviewed in accordance with Form ES-301-4 and a copy is attached.                                      |   |                                    | SEA<br>012     | Qam                                | MSB |
