RE: Request for Extension for Responses to Nonconformances Identified in NRC
Inspection Report No. 99901427/2017-201

Ametek Solidstate Controls is requesting an extension of 10 business days for the deadline to respond to the Notices of Nonconformances in NRC Inspection Report No. 99901427/2017-201. Due to recent resource availability and the upcoming holiday weekend, we are requesting this extension to enable sufficient involvement of the necessary personnel in the Nonconformance responses. This extension would allow the responses to be completed and submitted by July 19th, 2017.

Please feel free to contact me with further questions or concerns.

Sincerely,

Ethan Salsbury
Quality Manager
