Tier / Group	Randomly Selected K/A	Reason for Rejection
Tier 2 / Group 1	209001 / G2.4.4	Question 87 (12 on SRO Exam): Original KA drawn through random sample G2.4.4. for system 209001 (Low Pressure Core Spray System). We were unable to generate a question suitable for the SRO level. We elected to maintain the system and select a more suitable KA. Utilizing a random selection process we replaced Generic KA 2.4.4 with Generic KA 2.2.37 Ability to determine operability and/or availability of safety related equipment.
