Office of Nuclear Reactor Regulations  
Attention: Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Units 1 & 2  
Docket Nos. 50-335 & 50-389  
Vital Area Definition Reports

Your letter dated July 22, 1983, subject as above, has been examined by our Security Department personnel, and in their judgement, the equipment identified as "vital" in your report has been incorporated in Revision 7 of the St. Lucie Plant Security Plan, dated 6/29/83.

Because the equipment nomenclature utilized by your personnel differs from that used in our security plan, we have our Engineering Department performing a detailed drawing review to confirm the equipment you identified is indeed in Revision 7 of St. Lucie Plant Security Plan. The review will be completed by September 30, 1983, and if any deviations are identified, the St. Lucie Plant Security Plan will be revised accordingly.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
