Acting NRSC Chairman
Department of the Navy
Radiological Controls and Health (N455)
Energy and Environmental Readiness
Division (N45)
Office of the Chief of Naval Operations
2000 Navy Pentagon (2D253)
Washington, DC 20350-2000

SUBJECT: NRC INSPECTION REPORT NO. 03029462/2017003, DEPARTMENT OF THE
NAVY BIENNIAL INSPECTION

Dear Dr. Goodfellow:

This refers to the announced U.S. Nuclear Regulatory Commission (NRC) onsite team inspection conducted from June 19 through June 22, 2017. The purpose of the inspection was to review the activities authorized under the Department of the Navy (Navy) Master Materials License (MML) for the period of April 25, 2015, through June 22, 2017. At the conclusion of the inspection on June 22, 2017, the findings were discussed with RDML L. V. Cariello, RDML(s) W. Greene, CAPT Jerry Sanders, CAPT Douglas Fletcher, CDR M. Beery, LCDR Joe Sorcic, LCDR Jeffrey Delzer, Dr. Lino Fragoso, Mr. Erik Abkemeir, Mr. Zach Edwards, Mr. Van Gaiter, and Mr. Kevin Huhn of your organization. The enclosed report presents the results of this inspection.

This inspection consisted of an examination of activities conducted under the Navy's MML as they relate to safety and compliance with the Commission's rules and regulations and with the conditions of the MML. Areas examined during the inspection are identified in the enclosed report. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations of activities in progress, and interviews with personnel.

The NRC determined that overall the Navy implemented its MML in accordance with the NRC licensing and inspection policies and procedures, and in a manner that protects the public health and safety.

No violations of the NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room located at NRC Headquarters in Rockville, MD, and from the NRC's document system, the Agencywide

Enclosure contain Sensitive Unclassified Non-Safeguards
Information. Upon separation, this cover letter is decontrolled.

S. T. Goodfellow
