

Docket No. 50-335

OCT 12 1983

Dr. Robert E. Uhrig  
Vice President  
Advanced Systems & Technology  
Florida Power & Light Company  
P. O. Box 14000  
Juno Beach, Florida 33408

Dear Dr. Uhrig:

SUBJECT: LOSS OF ALL NON-EMERGENCY AC POWER

In our review of your submittal of August 31, 1982 (L-82-381) dealing with the loss of all non-emergency AC power at St. Luice Plant, Unit No. 1, clarifying information was required.

This information was obtained by conference call on September 26, 1983. Since this additional information will be a part of the bases of the staff's safety evaluation, it will need to be formally submitted to the NRC. At the end of the conference call it was agreed with Mr. Ron Stevens of your staff that we would ask that the information discussed in the conference call be formally submitted.

This letter constitutes that request. The submittal should be made by November 15, 1983. If that date cannot be met, please provide us with one that you can meet.

If there are any questions, contact D. Sells, the Project Manager at (301) 492-9735.

The information requested in this letter affects fewer than 10 respondents; therefore OMB clearance is not required under P.L. 96-511.

Sincerely,

Original Signed by J. R. Miller

James R. Miller, Chief  
Operating Reactors Branch #3  
Division of Licensing
