Docket No. 50-335

Our letter L-83-316, dated May 20, 1983, committed to providing a final report summarizing the test results obtained from the first reactor vessel material irradiation surveillance specimen by November 1, 1983. That date was predicated upon a scheduled date for receipt of the data that our vendor was unable to meet.

We will therefore provide the report by December 15, 1983.

Very truly yours,

J. W. Williams, Jr.
