SUBJECT: VALIDITY OF CERTIFICATE OF COMPLIANCE NO. 9168 FOR THE MODEL NO.  
8-120B PACKAGE

Dear Mr. Boyle:

By letter dated April 5, 2017, EnergySolutions (ES) submitted an application to amend the certificate of compliance No. 9168 for the Model No. 8-120B package. The amendment request commits to ANSI N14.5 2014, clarifies requirements for leaktight criterion and pre-shipment leak testing, and provides specifications for the seals and the impact limiter foam. ES also requested a timely renewal of the certificate which had an expiration date of August 31, 2017.

In accordance with 10 CFR 71.38(b), "the existing certificate of compliance for which the renewal application was filed shall not be deemed to have expired until final action on the application for renewal has been taken by the Commission."

If you have any questions regarding this matter, you may contact me at (301) 451-7505.

Sincerely,

/RA/
