Dear Mr. Miller:

Re: St. Lucie Unit No. 2  
Docket No. 50-389  
License Amendment Fees

Florida Power & Light Company (FPL) is in receipt of your March 12, 1984, letter requesting \$4,000.00 remittance for license amendment fees pursuant to 10 CFR 170.22, for proposed changes to License Condition 2.C.7 regarding natural circulation cooldown and boron mixing.

Although no fee determination was indicated with the July 7, 1983 application, FPL believes that should the amendment have been required, the change would have been administrative in nature. It appears that NRC concurs, in that, referring to the Federal Register prenotice, NRC stated, "The staff considers that none of these changes involve a safety concern."

Therefore, pursuant to 10 CFR 170.22, enclosed is a check in the amount of \$1,200.00 for a Class II license Amendment fee.

Very truly yours,

J. W. Williams, Jr.  
Vice President  
Nuclear Energy

JWW/RJS/cab
