Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit 2
Docket No. 50-389
Proposed License Amendment
Organization and Event Reporting

In accordance with 10 CFR 50.90, Florida Power & Light Company submits herewith three signed originals and forty copies of a request to amend Appendix A of Facility Operating License DPR-67.

This amendment is submitted to reflect changes in FPL Off-site Organization, and to update the reporting requirements 10 CFR 50.72 and 10 CFR 50.73. The proposed changes are summarized on the attached page and are shown on the accompanying Technical Specification pages.

The position of Vice President St. Lucie has been approved by Florida Power & Light and will be implemented as discussed with the Region II, Regional Administrator.

In accordance with 10 CFR 50.91(a)(I), it has been determined that the proposed amendment does not involve any significant hazards considerations pursuant to 10 CFR 50.92. The No Significant Hazards Considerations determination is attached.

In accordance with 10 CFR 50.91(b)(I) a copy of the proposed amendment is being forwarded to the State Designee for the State of Florida.

The proposed amendment has been reviewed by the St. Lucie Facility Review Group and the Florida Power & Light Company Nuclear Review Board.

Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Page 2

Because the significant portions of this change are clarifying and made at the request of the Commission as stated in Generic Letter 83-43, a license fee is not provided with this request.

Very truly yours,

for 
J. W. Williams, Jr.
Group Vice President
Nuclear Energy

6-10, 6-13

Titles are changed to reflect current organization.

6-9

The requirement for the FRG to render determinations in writing prior to implementation is deleted to be consistent with Unit 1.

6-1

Overtime procedure requirements are revised to be consistent with Unit 2 SER, item 13.5.1.1(1)f.

ATTACHMENT

Re: St. Lucie Unit 2
Docket No. 50-389
Proposed License Amendment
Organization and Event Reporting

There are three types of changes in this request. There are organizational changes which show new titles and/or reporting chains for the Nuclear Energy Department and there are changes made in accordance with Generic Letter 83-43 to reflect revisions to event reporting requirements. These changes are administrative in nature. The organization changes are similar to example (i) of examples of amendments that are considered not likely to involve significant hazards considerations. The changes to the specifications made in accordance with Generic Letter 83-43 are similar to example (vii) in that they are made to make the license conform to changes in the regulations where the license changes result in very minor changes to facility operations clearly in keeping with the regulations. Therefore in accordance with 10 CFR 50.91(a)(1), we have determined that this amendment does not involve any significant hazards considerations pursuant to 10 CFR 50.91(c) in that the amendment does not:

- (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or
- (2) Create the possibility of a new or different kind of accident from any accident previously evaluated; or
- (3) Involve a significant reduction in a margin of safety.
