Office of Nuclear Reactor Regulations  
Attention: Mr. James R. Miller, Chief  
Operating Reactors Branch #3  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Miller:

Re: St. Lucie Unit No. 1  
Docket No. 50-335  
Containment Purge Valves

In response to the question asked by NRC's Mr. Bob Wright, concerning correlation of data on the 48" purge valves, Florida Power & Light Company has received verification from the Henry Pratt Company that the model testing for a 48" RIA butterfly valve blocked at 40° open included a model with a disc structure similar to that installed at St. Lucie Unit No. 1.

Very truly yours,

J. W. Williams, Jr.  
Group Vice President  
Nuclear Energy
