Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit No. 2
Docket No. 50-389
Proposed License Amendment
Stretch Power

- References:
1. J.W. Williams, Jr. letter to D.G. Eisenhut, Docket No. 50-389, St. Lucie Unit 2 Proposed License Amendment Cycle 2 Reload, L-84-148, June 4, 1984.
 2. St. Lucie Plant Unit 2 Amendment to Facility Operating License; Amendment No. 8; License No. NPF-16; November 9, 1984.
 3. Final Environmental Statement Related to the Operation of St. Lucie Plant Unit No. 2, NUREG-0942 April 1982.

Pursuant to 10CFR50.90, the Florida Power & Light Company requests an amendment to the Operating License No. NPF-16 for St. Lucie Unit 2. The requested amendment increases the presently licensed rated core power level of 2560 MWth to 2700 MWth. Three signed originals and forty copies of this request are enclosed.

The acceptability of the proposed change has been demonstrated in the previously approved Reload Safety Report (References 1 and 2). The potential environmental impact of operating at 2700 MWth rated core power was considered in the Final Environmental Statement (Reference 3) and found acceptable. Enclosures 1 and 2, respectively, provide the marked-up change to Technical Specification 1.25 (page 1-5) and a No Significant Hazards Consideration evaluation in support of this proposed change.

In accordance with 10CFR50.91(a)(1), it has been determined that the proposed amendment does not involve any significant hazards considerations pursuant to 10CFR50.92.

In accordance with 10CFR50.91(b)(1), a copy of the proposed amendment is being forwarded to the State Designee for the State of Florida.

The proposed amendment has been reviewed by the St. Lucie Facility Review Group and the Florida Power & Light Company Nuclear Review Board.

In accordance with 10CFR170.12(c) a check for \$150.00 is attached.

Very truly yours,

J.W. Williams, Jr.
Group Vice President
Nuclear Energy

Enclosures as stated.
