Gentlemen:

We have received a copy of your application dated October 6, 1983, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application transmitted the Inservice Inspection and Testing Program for Class 1, 2, and 3 Components and requested relief from certain ASME Code requirements for the St. Lucie Plant Unit No. 2. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with your application.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) is appropriate since the review will involve consideration of a single safety issue. Therefore, you are requested to remit the sum of \$4,000 to this office. If the ONRR staff's final review of your application reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,**Original Signed by:****Reba M. Diggs**
