

**U.S. FOOD & DRUG
ADMINISTRATION**

July 21, 2017

SUBJECT: Docket No. 030-04675; License No. 20-08361-01; Decommissioning Plan, Environmental Report, and Statement of Intent for the U.S. Food and Drug Administration Winchester Engineering and Analytical Center

Document Control Desk
U.S. Regulatory Commission
Washington, DC 20555-0001

U.S. Regulatory Commission Document Control Desk:

The U.S. Food and Drug Administration (FDA) Winchester Engineering and Analytical Center (WEAC) submits herein the *Decommissioning Plan (DP)*, *Environmental Report (ER)*, and *Statement of Intent (SOI)* pertaining to the decommissioning and remediation of soil areas located at 109 Holton Street, Winchester, Massachusetts.

On May 10, 2017, the FDA awarded a contract in the amount of \$432,752.73 (with an additional \$25,493.54 deep soil remediation option) to a third-party environmental firm, North Wind Solutions, located in Knoxville, Tennessee. The contract covers the scope of work described in the enclosed DP. WEAC and North Wind Solutions utilized the checklist presented in Appendix D.2 of NUREG-1757, *Consolidated Decommissioning Guidance Volume 1* as the basis for the organization of the DP.

A forthcoming SOI for \$114,500 signed by the FDA's Deputy Commissioner for Operations (COO) will cover an additional 25% contingency. The enclosed SOI includes a copy of FDA Contract HHSF223201710022C and documentation of the COO's authority to request funds.

This submission includes one hard copy of the SOI, ER, and DP including RESRAD model results and one electronic copy of the RESRAD data files organized in the following file structure:

- The RESRAD model files associated with DP Appendix C are located in the folder "Main\DP_AppC_Prob and Det RESRAD Files\"
- The RESRAD model files associated with DP Appendix D are located in the folder "Main\DP_AppD_EM C RESRAD Files\"
- The RESRAD-ONSITE version 7.2 modeling software can be downloaded from the Argonne National Laboratory website at <http://resrad.evs.anl.gov/codes/resrad-onsite/>

We have also provided a courtesy copy of these files to Mr. Varughese Kurian, the NRC assigned project manager at 11545 Rockville Pike, Rockville, MD 20852.

WEAC and North Wind Solutions look forward to hosting meetings to answer any questions to expedite the review process. Please contact Elon Malkin, Assistant RSO and Decommissioning Project Manager, with any questions or comments regarding this submittal. He can be contacted at 781-756-9814 or by email at Elon.Malkin@fda.hhs.gov.

Sincerely,

Brian L. Baker -S
