REGULATORY DOCKET FILE COPY

February 20, 1978

Mr. Donald K. Davis, Acting Chief
Operating Reactors - Branch 2
Division of Operating Reactors
U.S. Nuclear Regulatory Commission
Washington, DC 20555

**Subject: Dresden Station Units 2 and 3
Quad-Cities Station Units 1 and 2
Mark I Containment Program - Interim
Structural Acceptance Criteria
NRC Docket Nos. 50-237/249 and
50-254/265.**

Dear Mr. Davis:

The subject criteria have been transmitted to the NRC by General Electric via L. J. Sobon's letter to V. Stello, dated February 10, 1978. These criteria were discussed at a number of meetings with the NRC Staff and, since the NRC Staff comments have been incorporated, significant changes are not expected. The subject criteria are being used to evaluate Dresden 2, 3 and Quad-Cities 1, 2 containment structures. Final structural acceptance criteria reflecting NRC review of the subject material will be submitted in the ~~Plant Unique Applications Guide~~ in October 1978. The subject criteria should be included on the Dresden Station Units 2 and 3 and Quad-Cities Station Units 1 and 2 dockets.

One original and 59 copies are provided for your use.

Very truly yours,

M. S. Turbak
Nuclear Licensing Administrator
Boiling Water Reactors
