Dr. Chester P. Siess
Chairman, Advisory Committee
on Reactor Safeguards
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Dr. Siess:

Sixteen (16) copies of the following are transmitted for the
Committee's information:

Form letter dated November 20, 1972, regarding fuel densification
and its effect on reactor operation including transients and
postulated loss-of-coolant accidents sent to the licensees and
applicants on the list attached to the letter.
