

UNITED STATES OF AMERICA  
ATOMIC ENERGY COMMISSION

In the Matter of:

COMMONWEALTH EDISON COMPANY  
(Dresden Nuclear Power  
Station Unit No. 3)

*(Suppl)*  
Docket No. 50-249

9-28-66

APPLICANT'S PROPOSED  
FINDINGS OF FACT AND  
CONCLUSIONS OF LAW

Applicant concurs in the Proposed Findings of Fact and Conclusions of Law by the AEC Regulatory Staff in the form of a Proposed Initial Decision (the "Proposed Findings") which was submitted by counsel for the AEC Regulatory Staff with its letter of September 21, 1966 to the members of the Atomic Safety and Licensing Board subject to the following changes.

1. The word "increased" in the third line of paragraph 9 of the Proposed Findings should be deleted.
2. The following should be inserted at the end of paragraph 11 of the Proposed Findings:

"With respect to the emergency core cooling system ACRS recommended that 'details of design, fabrication procedures, plans for in-service inspections and analyses . . .' be submitted for review by the Regulatory Staff and ACRS 'as soon as this information is available and prior to irrevocable construction commitments pertaining thereto.' In response to this request the Applicant made the commitments to supply

such 'details' or technical information identified in the ACRS letter as soon as possible and, further, that any construction commitments made prior to such Staff and ACRS review of such details would be at the Applicant's risk, financial or otherwise."

Respectfully submitted,

COMMONWEALTH EDISON COMPANY
