The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Furthermore, it is noted that the records should be kept in a secure and accessible location. Regular audits should be conducted to ensure that the information remains up-to-date and accurate. Any discrepancies should be investigated immediately to prevent errors from compounding.

In addition, the document highlights the need for clear communication between all parties involved. Regular meetings and reports should be used to keep everyone informed of the current status and any changes that may occur. This helps to build trust and ensures that everyone is working towards the same goals.

Finally, it is stressed that the information should be shared in a timely and appropriate manner. This allows for better decision-making and helps to identify potential issues before they become major problems.

L-85-252

Office of Nuclear Reactor Regulation  
Attention: Mr. Hugh L. Thompson  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Thompson:

Re: St. Lucie Unit Nos. 1 and 2  
Docket Nos. 50-335 and 50-389  
Generic Letter 83-37  
NUREG 0737 Technical Specifications

In accordance with 10 CFR 50.90, Florida Power & Light Company submits herewith three signed originals and forty copies of a request to amend Appendix A of Facility Operating Licenses DPR-67 and NPF-16.

This request for a license amendment to St. Lucie Units 1 and 2 Technical Specification adds instrumentation required by NUREG-0737 to the accident monitoring instrumentation tables. St. Lucie Unit 1 will add Incore Thermocouples, Containment Sump Water Level (narrow and wide ranges), Containment Pressure and Reactor Vessel Level Monitoring System to tables 3.3-11 and 4.3-7. St. Lucie Unit 2 will add the Reactor Vessel Level Monitoring system to tables 3.3-10 and 4.3-7. Also, the appropriate Operability and Action Statements have been added. These additions are indicated on the Tech Spec pages included as Attachments 1 and 2.

A no significant hazards evaluation has been performed as required by 10 CFR 50.91 and 92 and is provided as Attachment 3.

This request includes all of the changes requested by our letter L-84-295 dated December 3, 1984, and therefore, supercedes that application.

The proposed amendment has been reviewed by the St. Lucie Plant Facility Review Group and the Florida Power & Light Company Nuclear Review Board.

In accordance with 10 CFR 50.91(b)(1), a copy of the proposed amendment is being forwarded to the state designee for the State of Florida.

Want  
Check

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in all financial dealings.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the importance of using reliable sources and ensuring the accuracy of the information gathered.

3. The final part of the document provides a summary of the key findings and conclusions. It reiterates the importance of ongoing monitoring and evaluation to ensure the effectiveness of the program and to identify areas for improvement.

Mr. Hugh L. Thompson  
Nuclear Regulatory Commission

In accordance with 10 CFR 170.21, a check is attached as remittance for the license amendment application fee for St. Lucie Unit 2. The Unit 1 application fee was submitted on April 17, 1985 (L-85-160), for the Amendment request submitted on December 3, 1984 (L-84-295), which this application supercedes.

Should you have any questions regarding this submittal, please feel free to contact us.

Very truly yours,

J.W. Williams, Jr.  
Group Vice President  
Nuclear Energy
