Attention: Mr. Edward J. Butcher, Acting Chief
Operating Reactors Branch #3

Dear Mr. Butcher:

Re: St. Lucie Unit No. 2
Docket No. 50-389
Inservice Inspection Program

Florida Power and Light Company (FPL) letter L-85-201, dated May 16, 1985, stated that five copies of the revised inservice inspection program was being forwarded directly to your consultants, as previously arranged during a telecon with them and your staff. However, this revision, which includes FPL's responses to NRC's request for additional information dated September 14, 1984, was not also forwarded to NRC. Therefore, attached is Revision 1 to the St. Lucie Unit 2 First 10-Year Inspection Plan, including the revised drawings.

Very truly yours,
