1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial statements and for providing a clear audit trail. The text also mentions the need for regular reconciliations to identify any discrepancies early on.

2. The second part of the document focuses on the internal control system. It outlines the key components of a strong internal control system, including the segregation of duties, the establishment of clear policies and procedures, and the implementation of effective monitoring and reporting mechanisms. The text stresses that a robust internal control system is essential for preventing and detecting errors and fraud.

3. The third part of the document addresses the role of management in ensuring the accuracy and reliability of the financial information. It highlights the responsibility of management to establish a culture of integrity and transparency, and to provide adequate resources and training to the accounting staff. The text also discusses the importance of timely and accurate reporting to the board of directors and other stakeholders.

Office of Nuclear Reactor Regulation  
Attention: Mr. Hugh L. Thompson, Director  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Thompson:

Re: St. Lucie Unit No. 2  
Docket No. 50-389  
C-E Large Break LOCA Analysis

Florida Power & Light Company (FPL) letter L-85-300, August 2, 1985 indicated that FPL was working with Combustion Engineering (C-E) to develop a schedule for resolution of the non-conservatism in the C-E Large Break LOCA evaluation model. The purpose of this letter is to inform you that C-E is redoing the St. Lucie Unit 2 Large Break LOCA Analysis, and that FPL expects the results to be available by January 31, 1986.

Very truly yours,

J.W. Williams, Jr.  
Group Vice President  
Nuclear Energy
