Office of Nuclear Reactor Regulation  
Attention: Mr. Ashok C. Thadani, Director  
PWR Project Directorate #8  
Division of PWR Licensing-B  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Thadani:

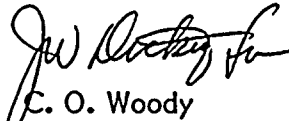

Re: St. Lucie Units 1 and 2  
Docket Nos. 50-335 and 50-389  
Testing of St. Lucie Sonar System

Due to schedular delays, Florida Power & Light Company (FPL) is unable to support testing by The University of Texas of Austin, Applied Research Laboratories, on the St. Lucie sonar system as originally scheduled by the NRC. As a result, FPL has accepted responsibility for this delay and will provide five (5) divers for the test instead of four (4) as originally agreed upon.

The new start date for the ten consecutive days of testing will be February 17, 1987. This testing start date allows for system operability by March 16, 1987, which we had committed to in earlier correspondence to Region II (L-86-339, dated September 18, 1986).

Please contact us if you have any questions about these arrangements.

Very truly yours,

  
J. O. Woody  
Group Vice President  
Nuclear Energy
