ARLINGTON TX 76011-4511

August 4, 2017

Mr. Thomas D. Kennedy, Sr. Vice President  
Amerapex Corporation  
2950 North Loop West, Suite 1100  
Houston, TX 77092

**SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 42-35294-01**

By electronic communication dated July 24, 2017, Mr. Larry Paul Marks, Corporate Radiation Safety Officer, informed the U.S. Nuclear Regulatory Commission (NRC) that Amerapex Corporation wished to terminate NRC radioactive materials license number 42-35294-01. The NRC Form 314 dated July 24, 2017, stated that all radioactive material had been transferred to a licensed entity.

The staff has reviewed the statements made in NRC Form 314, and the results of the NRC inspection conducted on November 29, 2016. NRC license number 42-35294-01 authorizes work at temporary job sites in NRC jurisdiction and no field stations or permanent radiographic installations are identified in this license. Based on the documentation submitted and a review of your historical file, the staff concluded that: 1) all licensable radioactive material is not being stored at temporary job sites in NRC jurisdiction under the terms of this license, and 2) no field stations need to be released for unrestricted use.

Please find enclosed Amendment No. 2 to License No. 42-35294-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

**/RA/**
