SUBJECT: TN AMERICAS LLC APPLICATION FOR AMENDMENT NO. 15 TO  
STANDARDIZED NUHOMS® CERTIFICATE OF COMPLIANCE NO. 1004 FOR  
SPENT FUEL STORAGE CASKS, REVISION 0 (DOCKET NO. 72-1004, CAC  
NO. L25214) – ACCEPTED FOR REVIEW

Dear Mr. Bondre:

By letter dated March 28, 2017, TN Americas LLC (TN) submitted to the U.S. Nuclear Regulatory Commission (NRC) an application for Amendment No. 15 to the Standardized NUHOMS® Certificate of Compliance No. 1004 for Spent Fuel Storage Casks, Revision 0, pursuant to the requirements of Part 72 of Title 10 of the *Code of Federal Regulations*. By letter dated June 19, 2017, NRC staff indicated to TN that supplemental information was needed to complete the acceptance review of the application. By letter dated July 18, 2017, TN submitted their responses to the NRC request for supplemental information (RSI).

The staff has reviewed TN's RSI responses and has determined the application, supplemented by the RSI responses, now contains sufficient technical information in scope and depth to begin a detailed technical review. This letter acknowledges acceptance of your application.

We have established a schedule for the review and estimated that the staff may need approximately 1200 hours to complete its review. The schedule allows for the staff to complete its technical review and issue the first request for additional information (RAI) in October 2017 and, if a second RAI is not needed, a certificate of compliance in August 2018, based on you responding to the first RAI in November 2017. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

Please reference Docket No. 72-1004 and CAC No. L25214 in future correspondence related to the acceptance review for this licensing action. If you have any questions, please contact me at (301) 415-6825.

Sincerely,
