1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial data and for providing a clear audit trail.

2. The second part of the document outlines the various methods used to collect and analyze data. It describes how different types of information are gathered and how they are processed to identify trends and patterns.

3. The third part of the document focuses on the results of the analysis. It presents the findings in a clear and concise manner, highlighting the key insights that have been derived from the data.

4. The fourth part of the document discusses the implications of the findings. It explains how the results can be used to inform decision-making and to develop strategies for improving performance.

5. The fifth part of the document provides a summary of the key points discussed in the report. It reiterates the main findings and the recommendations that have been made.

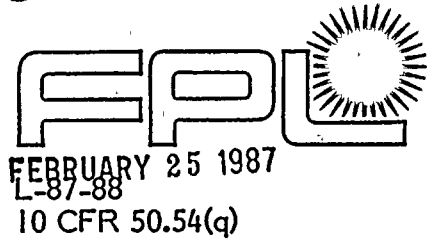

6. The sixth part of the document contains a list of references and sources used in the research. This allows readers to verify the accuracy of the information and to explore the topic further if they are interested.

7. The seventh part of the document includes a list of appendices and additional information. This provides further detail on the data and the analysis, as well as any other relevant information.

8. The eighth part of the document contains a list of figures and tables. These visual aids help to illustrate the data and make it easier to understand.

9. The ninth part of the document includes a list of footnotes and a glossary. This provides additional context and definitions for the terms used in the report.

10. The tenth part of the document is the conclusion. It summarizes the overall findings and provides a final recommendation.

Gentlemen:

Re: St. Lucie Units 1 and 2
Docket Nos. 50-335, 50-389
Emergency Plan Revision 16

Pursuant to 10 CFR 50.54(q) attached is one copy of Revision 16 to the Radiological Emergency Plan for St. Lucie Plant. The revision has been reviewed by the Facility Review Group and determined not to decrease the effectiveness of the plan.

Due to an administrative error, the revision was not sent within the 30 days required by the regulation. FPL has reviewed the other Emergency Plan Changes and changes to the Emergency Plan Implementing procedures and determined it is an isolated case. In addition, FPL is reviewing the method used to track the implementation of this regulation to prevent reoccurrence.

Very truly yours,

C. O. Woody
Group Vice President
Nuclear Energy
