FEBRUARY 24 1987

L-87-85

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D. C. 20555

Gentlemen:

Re: St. Lucie Unit 2
Docket No. 50-389
Proposed License Amendment
Containment Ventilation System

In accordance with 10 CFR 50.90, Florida Power & Light Company (FPL) submits herewith a request to amend Facility Operating License NPF-16.

By letter dated December 9, 1986 (E. G. Tourigny to C. O. Woody) the NRC staff requested that FPL propose changes to the surveillance requirements of Technical Specification 4.6.1.7.4 to require that the continuous containment purge supply and exhaust isolation valves be determined OPERABLE every 92 days. The present requirement requires that these valves be determined OPERABLE during the return to power following a refueling outage (18 months). The plant was modified to accommodate the 92 day testing requirement prior to the first refueling outage and was reported as such by FPL letter L-84-333, dated November 20, 1984.

A marked up copy of the affected Technical Specification page is included as Attachment 1. A Safety Evaluation in support of the proposed amendment is included as Attachment 2. A "Determination of No Significant Hazards Consideration" is provided as Attachment 3.

The proposed amendment has been reviewed by the St. Lucie Facility Review Group and the Florida Power & Light Company Nuclear Review Board.

In accordance with 10 CFR 50.91(b)(1), a copy of the proposed amendment is being forwarded to the state designee for the State of Florida.

What is the purpose of this
document? Is it a letter or a
report? Please state clearly.

Very truly yours,

Mr. J. H. Smith

123 Main Street

City, State, and Zip

Enclosed is the report you requested.

All the information in this report is based on the data
provided to me by the various departments of the
company.

The report is divided into three main sections. The first
section discusses the current status of the project. The second
section discusses the progress made to date. The third
section discusses the future plans for the project. The
report is intended to provide you with a comprehensive
overview of the project and its progress. It is hoped that
this information will be helpful in your decision-making
process.

I am sure that you will find this report to be of great
value. Please do not hesitate to contact me if you have
any questions or need further information.

Sincerely,
John Doe

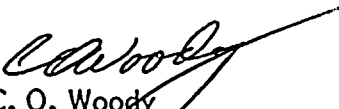

John Doe is the author of this report. He is a member of the
project team and has been responsible for the collection and
analysis of the data.

Attachment (4)

cc: Dr. J. Nelson Grace, USNRC, Region II
Senior Resident Inspector, USNRC, St. Lucie Plant
Mr. Lyle Jerrett, Florida Dept. of Health and Rehabilitative Services

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting cycle, from identifying the transaction to posting it to the appropriate ledger account.

3. The third part of the document discusses the role of internal controls in ensuring the accuracy of financial records. It describes various control measures, such as segregation of duties and independent verification, that are designed to minimize the risk of errors and fraud.

4. The fourth part of the document addresses the importance of regular audits in the financial reporting process. It explains how audits provide an independent assessment of the reliability of the financial statements and help to identify areas for improvement.

5. The fifth part of the document discusses the impact of technology on financial reporting. It highlights the benefits of using accounting software and other digital tools to streamline the reporting process and improve the accuracy of the data.

6. The sixth part of the document discusses the importance of transparency in financial reporting. It explains how providing clear and detailed information about the company's financial performance helps to build trust with investors and other stakeholders.

7. The seventh part of the document discusses the role of the board of directors in overseeing the financial reporting process. It describes the board's responsibilities for ensuring the accuracy and integrity of the financial statements and for approving the final report.

8. The eighth part of the document discusses the importance of ongoing monitoring and evaluation of the financial reporting process. It explains how regular reviews and assessments can help to identify weaknesses and implement improvements to the system.

9. The ninth part of the document discusses the importance of training and education for financial reporting staff. It emphasizes the need for ongoing professional development and the importance of staying up-to-date on the latest accounting standards and regulations.

10. The tenth part of the document discusses the importance of communication in financial reporting. It explains how clear and consistent communication is essential for ensuring that all stakeholders have a good understanding of the company's financial performance and the reporting process.

$\frac{d}{dt} \left(\frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971) using a Shimadzu 1601 UV-Visible Spectrophotometer.

1. The first step in the process is to identify the problem. This involves gathering information about the situation and understanding the needs of the stakeholders involved.

和 人 通 過 對 他 們 的 研 究 發 現 了 一 種 新 的 有 效 的 治 療 方 法

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group (n = 10) and the experimental group (n = 10). The control group received a standard training protocol, while the experimental group received a modified training protocol. The subjects were then tested on a series of tasks, including a memory task, a motor task, and a cognitive task. The results of the tasks were compared between the two groups.
